**F**rom the company that has set the standard for details for 27 years comes another treasure to own and admire.

Third Rail is raising the bar again with unbelievable, record setting details... Details so fine they can only be done in brass.

These engines originated with the Boston & Maine RR and later appeared on the Southern Pacific and the Santa Fe with unique tenders for each road.

The coffin feedwater heater mounted on the boiler front will be one of the most exciting details to ever appear on a locomotive.

The models come complete with Lionel TMCC<sup>®</sup> and all the bells, whistles, chuffing smoke and more. All of the features that have made 3<sup>rd</sup> rail models so desirable!

Only 50 of each version to be produced. **Call your dealer or 1-800-3RD-RAIL today!**
